Press Release

DEDICATED SNORKEL TRIPS ON THE ISLE OF SPICE!!

Snorkel Grenada offers a new comprehensive snorkel program

Grenada, May 12, 2007: **Now offering dedicated snorkel trips from large comfortable boats guided by knowledgably friendly Grenadian water enthusiasts. These trips are purposely for snorkelers, not just “tagging along” with divers and no “BOOZE” cruise either. Snorkeling is the primary activity and the crew's compassion. Never done snorkeling? No problem – snorkel instructors will introduce you to the beauty of our world underwater in a safe and comfortable way. They can teach different snorkel techniques, that make it fun and easy to explore beneath the surface. Using the expertise from diving, Aquanauts developed a comprehensive program for dedicated snorkelers and people who wish to learn how to do it. The guided trips take you to the best sites Grenada has to offer, the Marine park, the Sculpture garden, the Cove, “Gilligan’s” island, Blue Lagoon and other “secret” places. Snorkel vests are available free of charge and all guides are also trained in First Aid and Rescue procedures. The large and comfortable boats provide space in the sun, plenty of shade, easy access and lot’s of other amenities. During the trip the crew will serve local juices, fruits and the “unavoidable” rum punch at the end. The schedule offers different trips in the mornings and afternoons, going to one or two locations. Some of the trips are also suitable for divers, if you don’t want to “divide” the family. Snorkel tickets and weekly packages are available online and in Aquanauts stores.**
